MAILING INSTRUCTIONS

Step 1

Gather the items you have outlined in your order. Wrap them individually in newspaper or bubble wrap. It's best to wrap them diagonally, fold the ends over, and then tape them. Pack the wrapped items in the box you have chosen using packing materials so that your items fit snug in the box and do not move around; **DO NOT USE** flimsy shipping packages as knives and scissors can poke through, causing possible injury or damage to your items.

Step 2

Before you close the box make sure to **include the Order Form and Payment Information**. Print clearly. Close and tape up the box in preparation for shipping.

Step 3

Affix the shipping label, provided below, to the box and have the postal service pick it up or take it to the Post Office.

****Note:** if you choose to use USPS, priority packages are covered up to \$50.00 of insured value and include tracking.

Should you need more coverage, please purchase additional coverage at the post office.

Step 4

Once we receive your package*, your items will be examined to ensure there was no damage in transit. Most items are sharpened and shipped back out within five (7) business days (once payment is remitted). You will receive a notification with tracking information when your items have shipped. If there is excessive damage, we are unable to sharpen an item, a change in price, or any issues arise that would prohibit us from our normal turnaround time of five (7) business days, you will be notified by email, text, or phone call based on the information you provide.

***We utilize a third-party mail service. We don't necessarily have your package the day your tracking number shows "delivered." Our in-house turn-around time of 7 business days begins when we have your package in hand.**

*We are not to be held liable for shipping your items outside of the 7-business day window if we have emailed the invoice to the address provided but payment was not remitted; An invoice will be sent and payment must be received within the 7-business day window to ensure timely return shipping.
